Terms & Conditions / Services Information

INVOICES

Terms : 20th of month following month of invoice.

All prices are exclusive of VAT and apply from 1st February 2011.

DELIVERY

Deliveries to mainland UK will normally be within 5 working days from receipt of order.

Orders required during the following working day, overnight or special delivery can be arranged. This service is subject to a delivery charge, a rate determined by the weight of the consignment and location of the delivery point.

CARRIAGE CHARGES

Carriage is payable on all orders to one address within the UK mainland below **£500.00** (excluding VAT).

NOTE: Carriage will be applied to all dosing, control and equipment orders. All haulage charges will be determined by the weight of the consignment, and if outside hauliers are used, qualified ADR drivers will be used where applicable. It may also be necessary to incorporate a haulage charge on certain deliveries according to area and nature of delivery. Carriage will be charged on all deliveries to third parties.

ENVIRONMENTAL CHARGE

January 1st 1998 saw the introduction of Waste Packaging Regulations. This is a legal requirement involving accountability for (and payment for) waste plastic, paper etc., which as a consequence has forced us to implement an Environmental Charge. This charge may be subject to change.

MINIMUM ORDER CHARGE

A minimum order value for chemicals of **£100.00** (excluding VAT) will apply to each individual order placed, unless otherwise agreed. A minimum order value for test kits and tablets of **£50.00** (excluding VAT) will apply unless otherwise agreed. If ordered separate to chemicals, a postage charge will be applied.

COLLECTIONS

If you prefer, you can collect your order from either Fareham or Bradford warehouse. Please allow 48 hours from placing your order before collecting your goods. Please ensure that all drivers have been suitably trained to transport the goods that they are collecting. Please be aware that S.I.S. Chemicals cannot be held responsible for goods collected once they have left our premises and are in transit.

RETURN OF GOODS

All customers with goods to return, should, in the first instance, contact our Sales Department. No goods may be returned without permission.

CONTAINER RETURNS

It is essential that any containers collected are nominally empty, contain only residues of the product originally supplied in them, and that their closures have been securely fastened. Containers will only normally be collected at the time of a delivery.

HAZARDOUS WASTE

We will not collect or dispose of hazardous waste. Customers with such waste should contact a registered company licensed to dispose of such material.

TECHNICAL SUPPORT

We aim to provide technical support to our trade accounts, but confirm that as we do not supply to private users, any technical requests from the general public will be referred to their trade supplier, which in turn enables the trade to offer pool maintenance to the public.

CONDITIONS OF SALE

All products are sold subject to our Conditions of Sale, a copy of which is included with this price list.
